NATURALLY EFFECTIVE

COSMETICS FOR ATHLETES is no longer a niche: it is the convergence between **wellness, physical performance and skin care.**

Sport is increasingly becoming part of the daily routine of more people, and the active consumer is looking for products that support their lifestyle **before, during and after exercise.**

40%

Most active consumers consider skincare to be **part of their sports routine,** not an afterthought.
(Mintel)

PRE-SPORTS

Before exercise, the skin needs to activate and adapt to the increased blood flow and movement.

Activating formulas that stimulate microcirculation and prepare the skin to cope with physical exertion

DURING-SPORT

During physical activity, the skin is subjected to friction, sweat, and environmental stress.

Formulas that provide continuous protection of the skin's barrier function

POST-SPORT

After exercise, the skin enters a recovery phase to restore the altered skin balance.

Formulas that seek to soothe, repair and restore, accelerating recovery after exercise

ACTIVE SKINCARE

Active skin needs daily care that keeps up with your lifestyle.

Formulas that strengthen the skin's resistance, support its balance, and protect against stress

Among the most in-demand formulas of "Active Beauty" products are **pre-sport gels, body, hand and feet** products with **repairing and soothing action, "Body Sculpt"** body creams, **deodorants and antiperspirants.**

ACTIVE INGREDIENTS FOR "ACTIVE BEAUTY"

COBIOPHYTONIC GL

Botanical active ingredient that combines 5 plant extracts and bioflavonoids.

Ideal for pre-sport products as it stimulates microcirculation

DRAGON'S BLOOD LP

Extract of the latex of the Croton lechleri tree with epigenetic activity combined with argan oil and shea butter.

Ideal for during and post-sport products due to its regenerative properties and protection of the barrier function.

COBIOCARE

Standardized propolis extract

Natural antiseptic and deodorant with soothing properties and skin barrier function improvement.

BIO SLIM PF

Slimming and anti-cellulite botanical complex

It improves blood circulation, stimulates tissue oxygenation, aids drainage, and improves skin firmness.
