

Sun Care  
**Wrapped**

It's time to prepare  
**Photoprotection Formulations**

## Sun protection is no longer seasonal:

skin needs continuous defense 365 days a year.

According to Euromonitor and Mintel, product launches featuring **“daily UV protection”** and **“all-year photoprotection”** grew **+30%** between 2021 and 2024, driven by rising awareness of cumulative UVA damage, even indoors

We present **Cobiosa’s top 6 actives for Sun Care formulations.**

These ingredients can truly make a difference in performance, protection, and sensoriality for your next launches:

**GELS, STICKS,  
EMULSIONS...**
