

# *LIPOSOMES*

Encapsulation, Protection & Smart  
Release of Active Ingredients

**LIPOSOMES encapsulate and protect** the active ingredients, and release them in target layers of skin, where the ingredients perform their function.

## LIPOSOMES

**Delivery systems** composed of one or more bilipidic layers

- Better absorption of active ingredients
- Active ingredients protection against oxidative stress, light, degradation...
- Longer-lasting effects
- Less irritation
- Higher efficacy with less ingredient concentration

LIPO CERAVIT C

HYACERAMIDYL

## PURE CERAMIDES LIPOSOMES

- Extraordinary purity of ceramides
- Obtained by ultra-high pressure
- Encapsulation without surfactants

### Ceramides properties:

- Reinforcement of the skin barrier
- Long-lasting hydration
- Soothing & repairing action

## HIGH TECH LIPOSOMES

- High moisturizing & repair power
- Smart Release System
- Maximum stability to temperature
- Maximum stability to pH
- Biomimetic composition
- Total active ingredient protection

LIPOVITAMIX ACE

LIPORETINOL V

LIPOCLARE V

## LIPORETINOL V

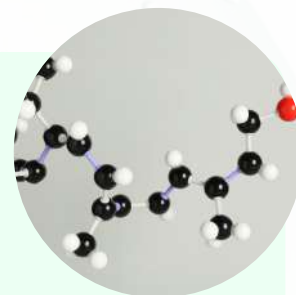

3% Retinyl Palmitate Liposomes

- Stimulates **collagen production**
- **Anti-wrinkle** effect
- Evens **skin tone**
- Promotes **skin regeneration**

**x12,5%**  
higher penetration

**Less irritation**

than free retinol

## LIPOVITAMIX ACE

3% Vit C + 0,5% Vit A + 0,5% Vit E Liposomes

- **Triple antioxidant power**
- Stimulates **collagen production**
- Skin **brightening** and intensive **nourishment**
- **Hydration** and **barrier reinforcement**

## LIPOCLARE V

3% Kojic Acid Liposomes

- **Photoaging** prevention
- Reduces **hyperpigmentation**
- **Mattifying** and **soothing** effect
- Reduces **uneven skin tone**

**x8,16%**  
higher penetration

**Less degradation**

than free kojic acid

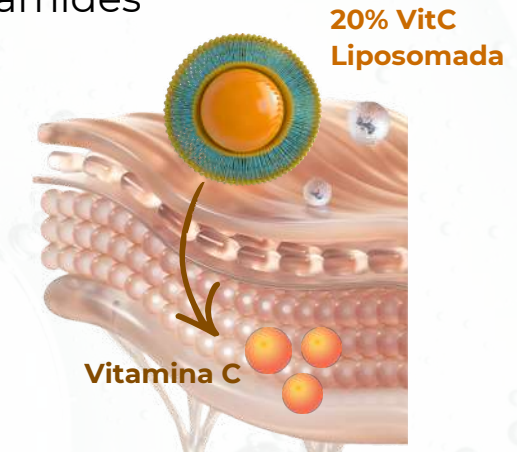

Unique % of Liposomed VitC

# LIPOCERAVIT C

20% Vitamin C liposomed in pure ceramides

**Vitamin C** is a very powerful ingredient but is **sensitive** to light, air, and heat. Thanks to encapsulation, we are able to **protect the active from oxidation and degradation**.

- **High antioxidant power**
- **Promotes collagen synthesis**
- **Helps reduce hyperpigmentation**
- **Brings radiance and vitality to the skin**

## LIPO-C RADIANCE SERUM

PROT.212/25

**Facial serum** with **Lipoceravit C** and **Cobiobright** that helps **brighten and even out skin tone**, providing **antioxidant protection** and a more radiant, revitalized appearance.

### MANUFACTURING PROCESS

1. Add ingredients of phase 1 and homogenize.
2. Add phase 2 to 1 and homogenize with turbine.
3. Add phases 3, 4, 5, and 6 and homogenize.
4. Adjust pH with phase 7 if necessary.

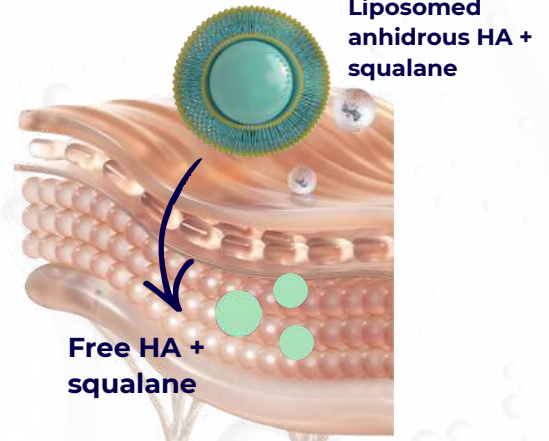

3 actives in 1

## HYACERAMIDYL

Liposomed anhydrous hyaluronic acid & squalane in pure ceramides

**Hyaluronic acid** increases size upon contact with water. Thanks to the **encapsulation of its anhydrous form**, the **penetration** of the active is not limited, allowing it to expand once it reaches the target layer of the skin, thus producing an **immediate effect**.

- Immediate and long-lasting deep hydration
- Immediate and long-lasting plumping effect
- Protection of the skin barrier function
- Provides elasticity and firmness

## HYDRO-LIPOPLUMP FACE CREAM

GF.10623-25

Facial cream with **Hyaceramidyl** that provides an **immediate plumping** effect and **deep hydration**, combined with the humectant and emollient properties of **Omega Butter**.
